

Appl. No. : 10/686,063
Filed : October 15, 2003

REMARKS

By the foregoing amendment, Applicant has amended the specification to correct a typographical error made in connection with the priority application. Applicant has also amended the specification to more particularly describe Figure 6 and has canceled the previously pending claims and has added Claims 56-106. No new matter has been added. Applicant reserves the right to pursue Claims 1-55 at a later date.

Applicant has also amended the priority claim to reflect that with the presently added claims, this application is a divisional of Serial No. 10/361,887, filed February 10, 2003, which is a continuation-in-part of Serial No. 09/855,358, filed May 15, 2001, now U.S. Patent No. 6,524,320. Claims 56-106 read on at least Species IV identified by the Examiner in parent Application Serial No. 10/361,887, on May 9, 2003.

Applicant respectfully requests entry of this amendment before examination by the Examiner on the merits begins.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
